I am an ITIL v5 certified senior service operations leader with over 7 years of experience. I know how to apply IT service management best practices to deliver outstanding support to customer organizations, improve service delivery and drive value co-creation between customers and the business.

ACCOMPLISHMENTS

- Managed I.T. operations for a ground campus of 300+ students and 20 staff members. In this role, I set up a fully functional dental lab with x-ray equipment, a server with student workstation access, a highly regulated Pearson testing room and student computer lab with 20 workstations on a separate subnet.
- Reduced average delivery time for the majority of service requests by 45%, some as much as 75% (ask me how!)
- Built and managed complex workflows, incidents, service requests, and reports from Ivanti Service Center as Ivanti administrator for the organization
- Incident Manager Process Owner in ServiceNow instance
- Level II escalation point for Service Desk team
- Onboarded and Offboarded employees
